### Benefit Payment Example

Kathy's daughter, Molly, plays soccer on the varsity high school team. During a recent game, she collided with an opposing player, was knocked unconscious, and was taken to the local emergency room (ER) by ambulance for treatment. The ER doctor diagnosed a concussion and a broken tooth. He ordered a Computed Tomography scan to check for facial fractures too, since Molly's face was very swollen. Molly was released to her primary care physician for two follow-up treatments, and her dentist repaired her broken tooth with a crown. Depending on her health insurance, Kathy's out-of-pocket costs could run into hundreds of dollars to cover expenses like insurance co-payments and deductibles. MetLife Group Accident Insurance payments can be used to help cover these unexpected costs.

Covered Event <sup>1</sup>	Benefit Amount
